

Projects

	Project Title	Funding Agency	Duration	Position
1	Conversion of thiourea derivatives to 2-imino-thiazolidine-4-ones and computational determination of their acetylcholinesterase (AChE) inhibition potentials.	Bogazici BAP	2020-2023	Coordinator
2	Design, synthesis and inhibitory activities of novel multi-targeted amide/carbamate derivatives as potential therapeutics for Alzheimer's disease	TUBITAK (1001)	2020-2022	Coordinator
3	Asymmetric synthesis studies axially chiral o-trifluoromethyl phenyl thiohydantoin derivatives.	Bogazici BAP	2019-2021	Coordinator
4	Elucidation of Atroposelective Synthesis and Stereoconversion of Axially Chiral Thiohydantoin Derivatives	Bogazici BAP	2019-2020	Coordinator
