

Projects (2019-today)

	Project Title	Funding Agency	Duration	Position
1	Elucidation of Atroposelective Synthesis and Stereoconversion of Axially Chiral Thiohydantoin Derivatives	Bogazici BAP	2019-2020	Researcher
2	Blocking and Unblocking Isocyanates: Reaction Mechanisms, Kinetics and Solvent Effect	Bogazici BAP	2020-2021	Researcher
3	Evaluation of pK _a for quinazoline derivatives	Bogazici BAP	2021-2022	Researcher
4	Investigation of electronic and catalytic properties of supported metal oxide catalysts in ionic liquid medium.	TUBITAK	2021-2022	PI/Researcher
